1 STEP7 下载时如何恢复提示"块已存在,是否 覆盖"

1.1 问题描述

如图 1-1, STEP7 下载程序块时,如果 CPU 中已经包含了这个块,系统会有提示。如果此时选择了"Do not display this message again"的选项,再次下载已存在的块时,将不会再有提示。那该如何恢复呢?

Â	Block 'OB1' already exists. Do you	want to overwrite it?
Z Do not	display this message again.	
Po no	display this message again.	

1.2 解决方案

如图 1-2, STEP7 软件"Options"-"Customize"-"General"-"Deactive system messages:"点击"Activate",点击之后,如图 1-3。 这样,当再次下载已存在的块时,系统将恢复提示。
